Foreword

The title of the Barber Law (Act of June 19, 1931, P. L. 589 as amended) reads as follows:

“An Act to promote the public health and safety, by providing for the examination and licensure of those who desire to engage in the occupation of barbering; regulating barber shops and barber schools, and apprentices and students therein; regulating compensation for service rendered: conferring certain powers and duties on the Department of Public Instruction; and providing penalties.”

In accordance with the provisions of the Barber Law, the Department of Public Instruction has formulated, from time to time, rules and regulations indicating the proper interpretations of the law and the manner in which barbering should be practiced. Bulletin 604, *Interpretations and Regulations for the Administration of the Barber Law* was developed in 1938, but amendments to the law and the need for additional information relative to apprenticeship and examinations have made it necessary for the Department in cooperation with the Barbers' Advisory Committee to make this revision.

The interpretations, rules and regulations contained in the bulletin are the result of experience in the administration of the law since it became effective January 1, 1932. Those in charge of schools of barbering and those in barber shops where there are apprentices should make sure that their students and apprentices are familiar with the material included in this bulletin.

It is hoped that this bulletin, which contains a copy of the barber law as amended to date and the interpretations, rules and regulations promulgated thereunder, will furnish guidance for proper barbering practice.

BARBERS' ADVISORY COMMITTEE

Statutory provision for the Barbers' Advisory Committee is included under Section 1304, paragraph (k) of the Administrative Code (Act of April 9, 1929 as amended), which reads as follows:

“(k) Whenever under any act of Assembly, enacted at the session of the General Assembly at which this Act was passed, or at any subsequent session of the General Assembly, the right to practice any profession, or work at any trade or occupation shall be conditioned upon examination, licensure, or registration, to hold such examinations, make such investigations, require such information, and do and perform all other acts which may be necessary to determine whether applicants for licensure or registration are qualified to practice the profession or work at the trade or occupation within this Commonwealth, and, in proper cases, to issue licenses and certificates of registration. In performing its duties under this clause, the Department shall appoint an advisory committee, of not more than five members, of each profession, trade or occupation, applicants to practice or work at which are examined and licensed hereunder. Each such committee shall assist the Department in holding examinations, and passing upon information submitted. In cases in which there is a State association of the profession, trade or occupation for which an advisory committee is to be selected hereunder, such State association may submit to the Department, from time to time, a list of ten names of persons qualified for appointment on such committee, and the Department's selection of a committee, or of persons to fill vacancies thereon, shall be made from the names submitted. Members of every advisory committee appointed by the Department under the authority hereby conferred, shall serve at the pleasure of the Department, and shall be compensated at the rate of fifteen dollars per diem for each day of services rendered to the Department, and shall receive the expenses actually incurred by them while engaged in assisting the Department, as herein provided, and the payment of such expenses, however, to be subject to the rules and regulations of the Executive Board. (Amended June 1, 1931, P. L. 350.)”

Section 15 of the Barber Law indicates practices and acts prohibited and includes the following provision authorizing additional rules and regulations:

“The Department and Advisory Committee shall have power to make such other rules and regulations and prescribe such other sanitary requirements as shall be deemed necessary to carry out the provisions of this act.”

The Committee holds frequent meetings in Harrisburg and assists in the preparation and holding of examinations, drafts rules and regulations, reports on law enforcement, and keeps the Department in contact with barbering practice. The Committee also takes an active interest in the enactment of legislation which may improve barbering practice.

The members of the Barbers' Advisory Committee appointed in the year 1943 are as follows:

TYPES OF LICENSES

Licenses issued pursuant to the provisions of the Barber Law are as follows:

- Teacher's Certificate of Registration
- Barber's Certificate of Registration
- Apprentice or Student Permit
- Barber Shop Permit or Registration Certificate

No certificate of registration, permit, or other authorization to teach barbering, or practice any of the branches of barbering shall be valid unless it is issued by the Department of Public Instruction.

Any individual to whom a teacher's certificate of registration has been issued, shall be deemed qualified to perform any of the functions of a teacher or a barber. Authority for such performance shall, however, be subjected to all the terms and conditions hereinafter set forth.

Any individual to whom a barber's certificate of registration has been issued, shall be deemed qualified to perform any of the functions of a barber.

Any apprentice or student permit limits the holder to the performance of phases of barbering only while under the supervision of a duly registered barber in a registered shop or of a teacher in a registered barber school.

Every certificate of registration and permit issued by the Department must be displayed in a conspicuous place in the place of business, or place of employment of the holder. An individual who is not properly registered with the Department shall not be employed in any registered shop or school. An individual to whom a certificate of registration or permit has been issued shall not work in a shop or school that is not registered.

Lost or misplaced certificates of registration or permits shall be immediately reported to the Department. An affidavit must be submitted to verify the loss before a duplicate can be issued.

All barbers who have not practiced in Pennsylvania and allowed their renewals to become delinquent may renew same by submitting an affidavit stating the reason they did not practice barbering during the years they were delinquent. An application for the current year is then forwarded to the applicant.

Barbers changing their registered addresses should notify the Bureau of Professional Licensing, Department of Public Instruction, Harrisburg, Pennsylvania, of such changes immediately. Shop owners should apply for an application for a new permit and return the permit issued for the former shop with the completed application.

Apprentice and Student Permits:

An applicant for an apprentice or student permit must be free from contagious and infectious diseases.

A student permit may be issued only to an applicant who is a graduate of an eighth grade school or its equivalent.

An apprentice permit may be issued to an applicant who does not present a certificate of graduation from an eighth grade school or its equivalent, but before an apprentice may be admitted to a barber examination he must, among other prerequisites, submit a certificate from an eighth grade school or its equivalent.

THE CHILD LABOR LAW and the regulations thereunder adopted by the Department of Labor and Industry provide that "no minor under fourteen years of age may be permitted to work in any establishment or in any occupation."

No minor under eighteen years of age shall be employed without an employment certificate which must be kept on file by the employer and accessible to any attendance officer, deputy factory inspector, or other officer charged with the enforcement of the Child Labor Law.

Employment certificates are of two classes, — general employment certificates and vacation employment certificates. A vacation certificate is required when a minor between fourteen and eighteen years of age is employed before or after school hours or during school vacations.

Employment certificates shall be issued within each school district by the superintendent or supervising principal, or in school districts having no superintendent or supervising principal, by the secretary of the board of directors of that district.

When an applicant is unable to submit any of the aforesaid evidences of having a certificate showing graduation from an eighth grade or its equivalent, he will be required to pass an examination in elementary school subjects given by the Department of Public Instruction, and obtain an equivalent certificate. The fee for such examination to obtain an equivalent certificate is two dollars.

NOTE: The compulsory school law requires a student to remain in school until his or her seventeenth birthday unless he holds a certificate of graduation from a regularly accredited senior high school. If the applicant is combining barbering with public school attendance, it is important that he determine whether or not he will meet the requirements for examination at the expiration of his apprentice permit.

Examinations for certificate of registration as a barber or teacher include both practical and written tests. A passing grade in practical work and in the written test is required before a certificate of registration may be issued.

Personnel Requirements

Owners. No school shall be registered until the Department has had ample opportunity to verify sworn statements as to the actual ownership. False statements submitted in this connection shall constitute sufficient grounds for cancellation of the school's license if detected after a license has been issued. The Department reserves the right to deny school licensure to any applicant who fails to present satisfactory evidence of business, professional, or personal integrity. No school permit will be issued until the real owner files with the Department a statement definitely designating who is authorized to accept service of legal notices and to transact all citations for hearing and compliance with rulings issued by the Department. This statement shall bear a facsimile signature of the individual so authorized.

Supervisor. If properly qualified by preparation, experience, and teacher's certificate of registration, the owner may supervise his own

school; otherwise, he shall employ and place in charge of the actual operation of the school a responsible individual who possesses the following qualifications:

1. A teacher's certificate of registration.
2. A verified record of at least five years' practical experience in a registered barber shop, or fifteen years' experience as a barber, five years of which experience shall have been as a registered barber in a registered barber shop in this State, and one year of satisfactory experience in teaching.

The school shall, at all times, be in charge of and under the immediate supervision of such supervisor.

Staff Physician. Each school shall have attached to its staff a regularly licensed physician for consultation purposes.

Teachers. Each school shall meet the following requirements pertaining to teachers:

1. Each school shall employ as instructors only registered teachers competent to impart instruction in all branches of barber science which they teach.
2. No individual shall be counted as a regular, part-time or substitute teacher in any school unless his teacher certificate is on display in the said school.
3. Every school shall employ at least one full-time registered teacher.
4. Each class taught for credit shall consist of not more than twenty students per registered teacher, and in no case less than one full-time teacher who shall be in attendance at all times during the hours the school is open for instruction. The only exception to this rule which the Department will permit is the lecturing by the staff physician or some specialist, and then only when at least one teacher is present.
5. No teacher in a school of barbering may devote any portion of his time to work in a shop while the school is in session.
6. No barber of a barber shop may serve as a teacher in a school of barbering.
7. Teachers, as well as students, must during school hours, be attired in washable jackets, which must be kept in a clean condition. Teacher uniforms must be such as to distinguish teachers from students.

Student Enrollment, Credits, Etc.

Enrollment — No student shall be enrolled in any school of barbering unless he holds an apprentice or student permit issued by the Department. No student or apprentice permit can be issued for a school of barbering that does not maintain the standards prescribed by the barber law.

Entrance — Out-of-state transfer from schools. Whenever a student at the time of enrolling is entitled to credits previously earned, the school enrolling such student shall carefully evaluate these credits and submit to the Department three copies of the sworn certification of entrance credits. A mere statement that the applicant for certification of entrance credits has pursued work elsewhere than in the school requesting the Department's

approval shall not be accepted as sufficient evidence. The statement must be accepted as documentary evidence showing attendance at a given school, and if possible, the number of hours attended and subjects pursued.

If, and when the Department approves the entrance credits so certified, two copies of the certification shall be returned to the school. The school shall preserve these copies until the student is ready to apply for the State examination, at which time one copy shall be filed with the student's application for examination. The other copy shall be returned for the permanent files of the school.

No certification of entrance credits will be approved for any student who has pursued work in a school of barbering in this State since January 1, 1932, unless the school was registered at the time the work was done.

No certification will be approved for a student who has pursued his or her work outside the State unless the work is pursued in a school approved by this Department, or has been evaluated in the manner provided under this section.

Transfer Credits — A certificate of transfer must be completed in all cases where a student wishes to leave a registered school of barbering and transfer to another registered school of barbering. The school in which the student has completed a portion of his or her course of preparation must furnish the Department with a sworn statement upon an official blank "Certificate of Transfer," setting forth the subjects and the number of hours credit given in each, and such certification must be approved by the Department before the student may be enrolled in another school of barbering.

All Certificates of Transfer must be submitted to the Department in duplicate. When transfer credits constitute a portion of the number of hours required to establish eligibility for State examination, an approved Certificate of Transfer shall be submitted with the student's application for examination.

Attendance Reports — Each school shall keep a daily record of the attendance of each student and a record devoted to the different practices, and shall establish grades and hold examinations before issuing diplomas. The standard forms provided or approved by the Department shall be used in each school.

Not later than the fifth day of each month each school shall submit a report of the hours attended by each student, upon the form provided by the Department for this purpose. A failure to comply with this requirement promptly debars students from examination.

Time spent as an apprentice in a shop and as a student in a school may be combined to meet the requirement for examination.

Student Work — Compensation for Student Work. Each of the practices designated as *indirect charges* is strictly prohibited.

Each school shall display in a conspicuous place in and about the entrance to said school a sign in display letters at least one inch in height as follows: "ALL WORK IN THIS SCHOOL DONE BY STUDENTS ONLY," and unless this sign also carries the words, "NO CHARGE AND NO TIPS," other signs bearing these words shall be conspicuously posted.

PREPARATION BY APPRENTICESHIP METHOD

Section 3 of the Barber Licensing Act sets up the requirements which must be met in preparation for barbering by the apprenticeship method. In addition to the requirements enumerated in that Section of the Law, anyone who employs the apprenticeship method of preparing barbers shall be responsible for teaching his students the *minimum content* of the curriculum set up by the Department for schools of barbering, both for the practical and for the theoretical work.

GENERAL REGULATIONS PERTAINING TO SCHOOLS

Advertising — Each school shall advertise only under the designation of a school. A school shall not, in any form of advertising, be so designated as to mislead the public in regard to prices or location. Every establishment shall display a sign at its main entrance clearly visible, indicating that it is a barber school.

Authorized Signature — A registered school of barbering must supply this Department with a facsimile signature on white paper of the individual or individuals authorized by the owner of said school to sign all official certificates of students of said school for admission to examination. This signature should be filed immediately.

Daily Schedule — The blank furnished by the Department for the monthly report of student's hours, provides for reporting the number of hours devoted to each portion of the school's program of studies. In making out these reports no student shall be given credit for hours attended unless he is in actual attendance.

Each school is required to post schedules showing the schedules of classes in theory and in practical work. The daily schedule must be not less than seven nor more than eight hours for each day the school is in session and each student must have an opportunity to devote at least five hours per day to practical work. For each of these class periods the teacher in charge shall keep an accurate daily record of attendance and progress of each student.

Duty Work — The Department holds that all hours credited to a student should be devoted to the study of barbering. Therefore, duty work should not exceed a period of more than ten minutes of the student's instruction time. Duty work shall consist only of the tidying and cleaning naturally performed by any operator about his own chair at the conclusion of any barber process. It shall not include menial work of a nature ordinarily performed by a maid, porter, or janitor.

Curriculum — Each school shall be required to have readily available at all times a complete file of all curriculum suggestions and requirements which have been issued by the Department until superseded by later issues. All curriculum requirements set up by the Department shall be strictly complied with until rescinded or revised. It is expected that each school shall supplement and enrich the minimum requirements specified by the Department. Remember that 2,500 hours in not less than twenty-four months is the minimum. An applicant may combine school experience and barber shop apprenticeship.

Safety Precautions — Those in charge of the school should at all times be very vigilant to prevent accidents as well as infections. They should, therefore, observe with special diligence the following precautions:

1. All electrical appliances must be properly installed and grounded.
2. Requirements for sanitation and sterilization must be strictly observed at all times.
3. Infectious or contagious diseases of the skin should not be treated in any manner.

Service and Inspection — Every establishment must provide a suitable place properly equipped to give adequate service to patrons, and subject to inspection, at reasonable hours, by the Department or its representatives.

RULES AND REGULATIONS GOVERNING THE OPERATION AND CONDUCT OF BARBER SCHOOLS

Inspection — All barber schools shall be open for inspection at all times during business hours to any duly authorized representative of the Department.

Barber Schools — Every barber school shall be well lighted, well ventilated, and kept in a clean, orderly, and sanitary condition. All waste containers shall be thoroughly cleaned at least once during each session of the school. Floors must be kept free from hair and swept or mopped each day. Every barber school must be provided with adequate lavatories, readily accessible, and kept in a sanitary condition.

Water — Running water, hot and cold, located at a convenient point or points within each barber school shall be provided.

Sterilization — All tools and instruments, such as razors, tweezers, combs, hair brushes, rubber discs, parts of vibrators or massaging machines, and all other utensils or appliances that come into contact with the neck, face or head shall be cleaned immediately after each use and shall be sterilized immediately before using on another customer. Instruments shall be sterilized by immersing in disinfecting solution equal to a five per cent solution of carbolic acid or alcohol solution of at least 70 per cent strength for a period of at least one minute before serving each patron. Shaving mugs and brushes shall be thoroughly rinsed in boiling water before each separate use. All methods of sterilization that are bacteriologically effective will be permitted.

Towels — None but freshly laundered and sterilized towels kept in a closed dustproof container shall be used for each patron. The headrest of a barber chair must be covered with a freshly laundered towel or fresh paper for each patron. In cutting the hair of any person, a newly laundered towel or fresh paper shall be placed about the neck to prevent the hair cloth from touching the skin. All towels used on each patron must be discarded in a closed receptacle, and must not be left lying on work bench or wash bowl. This regulation includes hot towels taken from a steam sterilizer. Laundry work in a school is prohibited.

Astringents — The use of finger bowls, powder puffs, styptic pencils or sponges in barber schools is prohibited, and no barber, student, or apprentice shall keep any of them on or about his stand. Nothing but powdered or liquid astringents applied in each case on a clean towel or clean piece of cotton shall be used to check bleeding; styptic or astringent pencils and lump alum are strictly forbidden.

Health — Every person serving as a barber, student, or apprentice, shall thoroughly clean his or her hands immediately before serving each customer. No person who is an habitual user of alcoholic liquor, or who is addicted to the habitual use of morphine, cocaine, or other habit-forming drugs shall serve as a barber student or apprentice. All persons in a barber school shall be clean, both as to person and dress. No person shall act as a barber, student, or apprentice who is infected with a disease which may be transmitted or communicated to a patron. No person acting as a barber shall knowingly serve any person afflicted with an infectious or communicable disease.

Treating Diseases — No barber, student, or apprentice shall undertake to treat any disease of the skin, but shall advise consultation with a physician.

Business Location — No school of barbering shall be located so that nearby business activities interfere with the school. Rooms used for school purposes shall not be used for other purposes and all rooms shall be arranged and the work conducted so that the health and safety of patrons, students, and teachers are properly safeguarded.

Business Permit — Any person desiring to operate or conduct a barber school shall first secure a permit to do so, and shall keep the same prominently displayed.

Signs — Each school shall display in a conspicuous place in and about the entrance to said school a sign in display letters at least one inch in height as follows: "ALL WORK IN THIS SCHOOL DONE BY STUDENTS ONLY," and unless this sign also carries the word, "NO CHARGE AND NO TIPS," other signs bearing these words shall be conspicuously posted.

Registration — Every person engaged in the occupation of barber, student or apprentice shall secure a certificate of registration or a permit and keep the same conspicuously displayed near or adjacent to his work chair.

Rules Posted — These rules must be posted in a conspicuous place in the school. Copies for posting may be obtained from the Department.

The Pennsylvania Law Governing Barber Shops, Schools and Apprentices

(Act of June 19, 1931, P. L. 589 as amended.)

Title of Act:

To promote the public health and safety, by providing for the examination and licensure of those who desire to engage in the occupation of barbering; regulating barber shops and barber schools, and apprentices and students therein; regulating compensation for service rendered; conferring certain powers and duties on the Department of Public Instruction; and providing penalties.

SECTION 1. BARBERS; EXAMINATION AND LICENSURE

It shall be unlawful for any person to follow the occupation of barber in this Commonwealth unless he or she shall have first passed an examination and obtained a certificate of registration as provided in this act. Nothing contained in this act, however, shall apply to or affect any person who is now actually engaged in such occupation, except as hereinafter provided.

SECTION 2. BARBERS ENGAGED IN OCCUPATION

Every person now engaged in the occupation of a barber shall, within ninety days after the effective date of this act, file with the Department of Public Instruction, hereinafter termed department, an application under oath or affirmation, which shall set forth his or her name, age, residence, and length of time during which, and the place where, he or she has practiced said occupation, and which shall be accompanied by an affidavit of a practicing physician that the applicant was examined and is free from all contagious and infectious disease. The applicant, at the time of filing these papers, shall pay to the department the sum of two dollars. Thereupon the department shall issue to such applicant a certificate of registration entitling him or her to practice such occupation.

SECTION 3. APPLICATIONS FOR LICENSURE; FEE; EXAMINATIONS; TEACHERS AND BARBER SCHOOLS

Any person not holding a certificate of registration under the provisions of the preceding section, and desiring to obtain a license under this act, shall make application under oath or affirmation, in such form as the department shall prescribe. Such application shall be accompanied by an affidavit, which shall be made by a practicing physician, and shall set forth that the applicant was examined, that a test of his or her blood was made, and that he or she is free from all contagious and infectious disease, is a citizen of the United States or has filed a declaration of intention. The applicant, at the time of filing such application and affidavit, shall pay to the department an examination fee of five dollars or such other fee as may be fixed by the department, and shall present himself or herself at the next examination of applicants as hereinafter provided. The department shall thereupon proceed to examine such person, after being satisfied that he or she is above the age of sixteen years, free from contagious and infectious disease, has a certificate showing graduation from an eighth grade school

or its equivalent, and has either (a) studied the occupation for a period of two years, covering a period of at least 2,500 hours as a registered apprentice under a qualified and practicing barber as hereinafter provided, or (b) studied the occupation and trained as a registered student in a registered and properly appointed and conducted barber school under the instruction of a registered teacher for a period of at least six months, and served at least eighteen months, covering a period of at least 1,500 hours as an apprentice with a registered barber or as a student in a registered barber school. Under no circumstances shall a student or apprentice receive wages, directly or indirectly, for service rendered. If the department is satisfied as a result of the examination the applicant is possessed of requisite skill in said occupation to properly perform all the duties thereof, including his or her knowledge and ability in the antiseptic preparation of tools, shaving, hair cutting, and all the duties and services incident thereto, and is possessed of sufficient knowledge concerning the common diseases of the face and skin to avoid the aggravation and spreading thereof in the practice of said occupation, and the knowledge of the Barber's Licensing Laws, and rules and regulations of the department adopted thereunder, it shall enter his or her name in the register hereinafter provided for, and shall issue a certificate of registration to him or her authorizing him or her to practice such occupation, or to teach in registered barber schools as the case may be. Any person holding a certificate as a teacher may practice as a barber in any registered barber shop.

Any person who has been honorably discharged from service with the armed forces of the United States and who takes an examination for licensure under the provisions of this act shall have ten per centum added to his or her examination score.

Any person registered as an apprentice barber prior to induction into the armed forces of the United States may be admitted to an examination for licensure under the provisions of this act upon presentation of his or her certificate of honorable discharge from such service within one year from date thereof.

For any person to be registered as a teacher in a barber school, he must be at least twenty-three years of age, a graduate from an approved high school or its equivalent, and have had either (a) at least five years' experience as a registered barber in a registered barber shop in the State of Pennsylvania, or (b) training in a registered barber school of at least fifteen hundred hours in not less than ten months, and in addition thereto two years' experience as a registered barber in the State of Pennsylvania, or in lieu of the aforesaid requirements, he must have had fifteen years' experience as a barber, five years of which experience shall have been as a registered barber in a registered barber shop in this State. The examination for a teacher's certificate shall differ from the examination for a barber's certificate in that it shall be of a more exacting nature and require higher standards of knowledge of the practice and theories of barbering, including ability to teach properly the various practices and theories of barbering, physiology, hygiene, elementary chemistry relating to sterilization and antiseptics, massaging and manipulating the muscles of the face, neck, scalp, hair cutting, bobbing, shaving and trimming the beard, dyeing the hair, and the Barber Laws of this State, and the rules and regulations

adopted by the department and advisory committee. The registration fee for teachers shall be five dollars, and the annual renewal fee shall be five dollars.

Should he fail to pass the examination, upon payment of the required fee, he may take one other examination if he so desires. In no event shall he or she be permitted to practice barbering until he or she has received a certificate of registration as a registered barber.

SECTION 5. APPRENTICES AND STUDENTS

Nothing in this act shall prohibit any person from serving as an apprentice in such occupation under a registered barber of this Commonwealth, or from serving as a student in any barber school for the training of students in said occupation under the training of a duly registered teacher authorized to teach such occupation in this Commonwealth: Provided, That such apprentice or student shall apply to the department to have his or her name registered with the department, in a book which shall be kept by the department, and secure a permit, upon the payment of a fee of one dollar to practice as an apprentice under a duly registered barber or as a student under a duly registered teacher, such permit to be displayed in front of his or her working chair. Students, upon graduation from a registered barber school and having served eighteen months' apprenticeship in a barber shop, or in a registered barber school, and apprentices, upon completion of two years' apprenticeship in a barber shop as hereinbefore specified, shall make application for examination at the next regular period specified in this act. In case the applicant fails to pass such examination, he or she shall secure a new apprentice permit upon the payment of a fee of one dollar, which shall be valid until the next succeeding examination.

Apprentice permits, not exceeding four, to practice as an apprentice barber may be issued at the discretion of the department.

(1) Any person who practiced barbering during any period of service with the Armed Forces of the United States shall receive credit for such period of practice toward the two-year registered apprentice or registered student-apprentice period required by this act upon furnishing affidavits from his or her former immediate commanding officer or officers or such other official documents as may be proof to the department that he or she did practice barbering for such period whether or not such person was registered with the department prior to his entry into the Armed Forces of the United States.

The holder of such certificate shall display the same in a conspicuous place in front of his or her working chair where it may be readily seen by all persons whom he or she may serve.

SECTION 8. ANNUAL RENEWAL

The certificate shall be renewed on or before the thirtieth day of April in each year, and the holder of said certificates of registration shall pay to the department the sum of two dollars or such other sum as may be fixed by the department for a renewal card. Any holder of a certificate of registration, who shall fail to apply for a renewal of his or her certificate on or before the thirtieth day of April in each year, and who continues the practice of barbering or any of its branches, shall, on conviction thereof before any magistrate, alderman, or justice of the peace, be subject to a fine of not more than ten dollars, to be collected by summary conviction as like fines are collected by law, or in case of non-payment of the fine to undergo an imprisonment for a period not exceeding ten days. Any such person shall have the right of appeal, as in other cases of summary conviction.
